Maximum amount of credit This means the ceiling, or the total sums made available under the credit agreement.	Up to 30,000 kr, unless specifically agreed otherwise. Your total credit limit is stated on your invoice and in the customer portal.															
Conditions governing the drawdown This means how and when you will obtain the money.	The creditor decides whether to grant you credit in connection with your registration (first application for credit) and thereafter upon new applications. When purchasing specific products offered by selected partners of the creditor, you can either pay the purchase amount up front at the time of purchase or use the credit amount you have been granted as the means of payment. The granted credit amount is thus obtained by a purchase for the corresponding amount being approved and completed successfully.

Instalments and the order in which instalments will be allocated.	You will be invoiced on a monthly basis, commencing as of the first drawdown of the credit and up until used credit is fully repaid, all according to the payment plan agreed. By each due date, you shall at least pay the minimum amount shown in your invoice. When payments are made, older debts will be settled first.
